A LUST FOR THRUST
So, you like to try out new toys and our innovative, pulsating technology caught your eye? Then the Stronic Petite may just be the right toy for you. Our smallest and lightest pulsator thrusts all by itself for hands-free FUN. Plus, the tapered tip is easy to insert, making it a great first pulsator or sex toy.

Depending on your mood, you can use this super-quiet little thrusting vibrator for anything from gentle penetration to a wild session of thrusting FUN. And look ma, no hands! But where to put them? We have no doubt you know a spot that feels really good.

WAYS TO PLAY WITH STRONIC PETITE

Hit your hotspots
Gently stimulate the outside of the clitoris, feel the pulsation at the opening of the vulva as you glide the tip along your labia. Your STRONIC PETITE is water-resistant, by the way ? say hello to steamier baths and showers!

Come twice as hard
Combine the hands-free thrusting of STRONIC PETITE with stimulation of the outer clitoris, either with your hands or using a toy, and youll enjoy deeper, more intense orgasms.

Look, no hands!
Enjoy rhythmic thrusting without using your hands ? in practically any position you can think of. Our smallest and lightest pulsator thrusts back and forth all by itself. You choose from 5 speeds and 3 rhythms.

Whats inside?
Of course, every package comes with STRONIC PETITE and its charging cable without USB plug. On top of that, youll find a booklet which explains the idea & technology behind our brand new mini pulsator and inspires a wide variety of play ideas. The booklet further contains technical information as well as legalese. When you open up the packaging sleeve, youll discover an exciting Fact or Myth game that tests your knowledge about the clitoris.

DESIGN & COLOR
The contoured surface was specifically designed to activate the thousands of nerve cells hidden in the deep layers of the vaginal canal. Its also great for massaging the external part of the clitoris. Whats great for those new to the STRONIC line: The

gently tapered tip makes it super-easy to insert.

Are you into candlelight, floral fragrances, romantic settings? Then youll love our small thrusting vibrator in Pastel Lilac. Think creamy lavender soft serve... Or maybe its action and new experiences youre craving. Then check out STRONIC PETITE in Deep Sea Blue, one of our best-selling colors ? and get ready to explore a completely new feeling from every angle.

ONLY THE TIP OF THE ICEBERG
Truth is, only 18% of people with clitoris can climax from vaginal stimulation alone. Most require additional external stimulation of the clit to climax. But what is also true: the visible part of your clit is only 10% of its full size. In fact, the clitoris runs down both sides of the labia and deep inside the body. And thats where STRONIC PETITE comes in. This awesome little thrusting toy can also stimulate the inner legs of the clitoris ? each time it thrusts. The wavy contours on its surface are perfect for reaching the thousands of additional nerve endings deep inside the vagina.

So, if you love external clitoral stimulation, imagine how much more amazing, consuming, and intense the feeling will be when you stimulate your entire clitoris ? all the way from top to bottom, with rhythmic thrusting, at the same time. With your hands free to do whatever you like...
Stimulation of the external clitoris

EXTERNAL STIMULATION
Lube it up and use STRONIC PETITE externally for rhythmic clit stroking. Stimulate the outer parts of the clit, caress the labia, or massage the vaginal opening with the tip of the toy.

INTERNAL STIMULATION
During penetration, the inner legs of the clitoris get stimulated automatically with each thrust. The structured surface of the silicone shaft reaches even deeper layers and countless additional nerve endings.

COMBINE EXTERNAL & INTERNAL
Combine the hands-free thrusting of the pulsator with external stimulation of your clit ? either with your hands or a toy. Enjoy an even deeper, fuller orgasm ? inside and out!
