Product description

FUN FACTORY VIM SILICONE RECHARGEABLE VIBRATING WEIGHTED RUMBLE WAND - SUNRISE ORANGE

THE WORLD'S FIRST WEIGHTED-RUMBLE WAND

You've never felt a wand like the **Fun Factory VIM** before. Most wands deliver pure power and nothing else. On their low settings, they're buzzy or irritating. VIM has an industry-first weighted motor that delivers rumbly vibration at any speed, including the gentlest.

VIM has a wider range of vibrations than other toys, too, so you can luxuriate in its heavy quaking at any point in your play, from warmup to orgasm to cool-down. Customize any setting or program by holding the [+] or [-] buttons to find the perfect vibe.

Measurements: Total length: 12.3", Head diameter: 2.4", Head length: 2.7"

MORE CUSTOMIZATION. BETTER VIBRATIONS.

- Unique weighted motor pleases at every speed
- Wide range of settings, from gentle to strong
- Vibration stays in the head, not the handle
- Slightly flexible neck for comfort in any position
- 50% quieter & 32% lighter than the leading wand

WEIGHT WHERE YOU WANT IT
VIM's heavy in the head, so the vibrations have extra oomph, and the lightweight handle means you won't get fatigued.

WHY ARE WANDS STILL POPULAR? AREN'T THEY KIND OF '70S?
Wands have stayed popular for decades because of their unrivaled versatility and ease of use - they're FUN for anyone, on any external body part. They're also approachable enough for toy newbies and adaptable enough for couples and groups.

All that said, VIM isn't your grandma's "back massager." The technology behind this toy is totally new, from its weighted motor to its quiet operation to its customizable vibrations.

I ALREADY HAVE A WAND. SHOULD I STILL GET VIM?
You should! The toy's thudding vibration is unique and travels below the surface for deeper pleasure. Satisfy yourself with its ultra-strong settings and programs, which offer hard-and-fast stimulation.

I NEVER LIKED WANDS. WOULD I LIKE VIM?
You just might! Sensitive players will appreciate the wand's lower settings with a trembling vibration that's actually arousing, not irritating or overwhelming.

HOW DO THE CUSTOMIZABLE VIBRATIONS WORK?
Just hold down (-) to gradually decrease the intensity, or hold (+) to increase it to your liking. You won't be disappointed by the toy's strength—VIM's motor is our most powerful!

IS THIS TOY JUST FOR CLITS?
VIM is great for clitoral stimulation, but it's not only for that. Lots of people with prostates like pressing the wand against the perineum for indirect P-spot stimulation. You can also use it to spoil the corona of the penis, or to caress the balls during a blowjob.

It's also a nice way of warming up the whole body. Use it on your neck, shoulders, lower back, or anywhere else that deserves some love.

AND IT'S QUIET?
It's the quietest! In fact, VIM is 50% quieter than the leading wand, for maximum pleasure with minimum noise.
