Whether youre teasing yourself with the lightest touch of the VOLTA's tips or lying back and letting the highest setting blow you away, this vibe offers the power and versatility you crave.

JUST THE TIPS
Let the dynamic tips utter against the clit for incredibly powerful sensation.

POWER SPLIT
Cover your hotspots in vibration! Place one tip against the clit and one against the vaginal opening.

SHARE THE FLUTTER
Place one tip on either side of the shaft and use the VOLTA as a stroker - awesome for BJs!

MOTION + VIBRATION = OMG
The movement of the VOLTAs dynamic tips amplify its vibration, boost your arousal, and heighten sensitivity, letting you feel more than ever before. Explore a range of sensations from the wild percussion of the moving tips against your hotspots to classic vibration when you press the VOLTA against your body. You can even warm up with a light touch and then amp up the vibration and pressure when you want to get down to business. We recommend that you try positioning the tips in different places-on either side of the clit, against the hood, with one tip against the vaginal opening, around the labia and find your favorite way to vibe with the VOLTA.

COMPACT POWER
With all the strength of a much larger toy in a lightweight, ergonomic package, the VOLTA is perfect for folks who want to add

serious power to their partner sex. Love your wand, but dont want to pull it out on a first date? The lightweight, quiet VOLTA slips easily between your bodies and gives you the strong vibration you need, without interrupting your flow.

FULL-BODY FUN
Feeling generous? Share the FUN! The VOLTA makes a great addition to blowjobs, nipple stimulation, and more. Pro tip: using a little water-based lube, put the tips on either side of the shaft and use the Volta as a stroker.

PURRING VIBRATION
Chasing an orgasm that starts deep in your body and makes you see stars? Look no further. The VOLTA's powerful motor offers the rumbling, bass tone vibration that our customers love.

ERGONOMIC SHAPE
The VOLTA's loop handle makes it easy to hold your toy exactly where you want it, even when your hands are covered in lube. The positioning of the raised buttons makes it simple and intuitive to try a new speed or vibration pattern without interrupting the action. Best of all, the VOLTA is shaped to feel amazing against your clit and labia no matter which angle you try.
