Product description

Gcandy mini has two powerful motors, one in the larger phallus, to stimulate the G-spot, and one motor is located in the smaller nub, to massage the clitoris. **Gcandy mini** will keep both motors running for up to four hours on a full charge. These single motors offer strong dual stimulation. Could **G-candy mini** be the best G-spot vibrator and the best clitoral vibe all in one? Double action to reach all the right places.

Take advantage of dual motors and six new vibration modes. The larger shaft of the toy was created with vaginal penetration in mind, while the smaller nub or finger is ideal for external clitoral stimulation. Rocking your world to achieve mixed and full-body orgasms with simultaneous double stimulation. Plus, **Gcandy mini** makes time in the shower or bathtub even more exciting. This vibrator is 100% waterproof and submersible.

Although this vibrator can be used as an anal vibrator, we recommend some of our other specifically designed anal stimulators. When using any G-spot sex toy anally, remember to keep a good grip on the base or handle outside the body for safe use.
