Product description

Introducing the latest Gentley vibrator: the perfect toy for women seeking intense pleasure in their most sensitive areas. Its unique shape allows simultaneous stimulation of the G-spot, clitoris and vaginal entrance.

Two powerful motors located on the shaft and the clitoris, along with six vibration modes, create an exquisite combination that will take you directly to the peak of pleasure.

What makes this vibrator different from the others? Firstly, we have updated the Gvibe range with more modern, powerful and quiet motors. Secondly, this next-generation vibrator's rechargeable battery allows for up to four hours of uninterrupted pleasure. And last but not least, the packaging was designed to emphasize the premium nature of the product.

We have also taken care of the small details. The Gentley vibrator features a unique G-shaped handle that is not only comfortable to hold, but can also be placed anywhere.

Safety and comfort are our top priorities. That's why we made the Gentley vibrator with premium soft silicone that's easy to clean and completely waterproof. Plus, if you have any problems, we offer a three-year warranty.
