Product description

This super realistic vibrator is made with hypoallergenic silicone that makes it odorless. It is completely waterproof, perfect for enjoyment in the shower. It features an ergonomic design with a super realistic tone and feel. Its motor is powerful as well as silent, with which you can enjoy 6 vibration functions with variable intensities. You can charge it comfortably with its magnetic USB charger and take it wherever you want thanks to its travel lock. Press the + button for 2 seconds to unlock.

Greal Mini is designed to provide maximum pleasure experience through interesting features. The vibrating dildo is equipped with 6 powerful vibrations to choose from and a strong suction cup that allows the user to adhere it to any smooth surface. The 6 vibration modes differ from light tremors to intense vibrations. The top of the vibrating dildo is carefully designed to target the G-spot. Gvibe's revolutionary Bioskin material feels and responds like human skin and flesh. It is as close to the human body as possible.

Please note: This vibrating dildo does not come with a remote control. It is possible to connect the **Greal Mini** with the GRing XL to control the vibrations of the dildo.
