Product description

G-egg is soft and silky on the outside, but embossed and textured on the inside. The 3D edges create intense sensations, massaging every inch of the head and shaft. The greater elasticity of premium silicone makes using this sleeve super comfortable and enjoyable.

The masturbator is ideal for solo play, or for foreplay and subsequent fun. Stimulation with this toy can be combined with oral sex, manual work or caresses. The unique textures of the masturbator increase sensitivity, leading to new unusual sensations and a brilliant climax!

GEgg by Gvibe is suitable for anyone with a penis looking for a compact and innovative masturbator. The small size allows you to carry the G-Egg with you wherever you go, and completely discreetly.

Perfect to pack for your next getaway. No one will know unless you tell it. Water-based lubricants are compatible with this 100% TPE masturbator.

Remove the egg from the plastic wrap, give it an initial rinse, and pour your lubricant inside. Try the textured side around the head of the penis or twist it inside out on a dildo to add texture for the receiver. After use, rinse thoroughly with water and use a cleaner specially formulated for toys

Care Guide

Masturbator Guide

Use lubricant for best sensation. Clean after each use (soap and water). Air dry completely before storing.

Heating the sleeve improves realism. Rotate between sleeves to avoid boredom.
