### Product description

The **INTENSE** Christina vibrator has been designed for those seeking a complete, sophisticated, and deeply stimulating pleasure experience. With an ergonomic and immersive rabbit design, this erotic toy combines advanced technology, power, and elegance in a single device.

Equipped with 3 powerful independent motors, the Christina offers exceptional performance. Its external stimulator incorporates 8 intense vibration modes specifically designed for the clitoris, providing direct and precise stimulation. The main shaft has 10 rotating modes, designed to imitate a wrapping motion that massages the vaginal walls continuously and sensually. Added to this are 7 additional vibration modes that run through the vibrator's body, creating a perfect combination of movement and pulsation for a multi-sensory experience.

Made with high-quality medical silicone and ABS, this vibrator is completely body-safe, hypoallergenic, and phthalate-free, ensuring not only a silky smooth feel, but also maximum hygiene and durability. Its surface is easy to clean and very pleasant against the skin.

Thanks to its waterproof design, you can use the Christina in the shower or bath without worry, and its magnetic charger makes recharging quick, convenient, and safe, keeping it always ready for your intimate moments.

With a total length of 22.5 cm and 12.5 cm insertable, it offers pleasurable and manageable penetration, adapting to different anatomies and preferences. The external arm stimulates the clitoris while the vibrating, rotating shaft works internally, achieving deep and coordinated dual stimulation.

#### Highlighted Features:

- Rabbit-style design with dual stimulation
- 3 independent motors: clitoral vibration, internal vibration, and rotation
- 8 clitoral vibration modes
- 10 rotating modes on the shaft
- 7 internal vibration modes
