Product description

Discover new sensations with Puppy Licking, the clitoral stimulator that replicates the movement of a tongue with surprising realism. This small but powerful toy has been designed for those seeking an immersive, gentle, and deeply satisfying intimate experience.

Its licking technology is designed to mimic the sensation of a real tongue licking the clitoris rhythmically and continuously, providing a type of pleasure that feels natural, sensual, and tremendously arousing. The combination of movement and texture creates a unique experience that stimulates precisely where you need it.

The exterior design is sweet, modern, and functional, with an aesthetic inspired by tenderness and play. Its soft blue color (Pantone similar to 292U) gives it a touch of freshness and tranquility, without losing the charm of a sophisticated and purposeful toy. It is compact, ergonomic, and easy to hold, perfect for solo use or as part of couples' play.

Made with body-safe, soft-touch, and durable materials, Puppy Licking combines pleasure and safety in a single device. It's USB rechargeable, discreet in operation, and very easy to clean, ideal for those seeking comfort, hygiene, and performance without complications.
