Greater resistance with the Intense™ Rabbit Ring

Rabbit Ring by Intense™ offers greater firmness during sexual intercourse: The vibrating cock ring is placed over the non-erect penis, which is then raised to a new size due to its intense blood-clogging effect. The penis ring stimulates both members of the couple thanks to the vibration that can be easily controlled with a button. It is flexible and adapts perfectly and excitingly next to the penis. Thanks to the blood stagnation effect, the ring offers its wearer a firmer erection and greater resistance, in addition to delaying ejaculation.

Do both members of the couple enjoy the cock ring?

The cock ring caresses both partners with a powerful vibration. Thanks to its stimulating structure, the Intense™ Rabbit Ring also provides clitoral stimulation through its Bunny shape. Due to its IPX7 waterproof finish, Rabbit Ring by Intense™ is the ideal companion for fun in the shower or bathtub. In addition, the soft and body-friendly ABS is particularly hygienic and stimulates with a pleasant sensation. The material can be easily cleaned before and after each use with a toy cleaner. Waterfeek's Disinfectant Spray, for example, is ideal for the material.

If the Intense™ Rabbit Ring runs out of breath, just pop in fresh LR44 batteries and start a new adventure.
