- Easy to clean
- Lithium ion battery
- Magnetic USB Charging Cable
- 20 vibration programs

Clitoral stimulation with the Intense™ Harry

Intense™ Harry impresses with its impressive stimulator, reminiscent of romantic petals and artfully enveloping the clitoris with fluttering vibrations. With a variety of 20 vibration programs, the vibrator is really powerful and stimulates you with vibrations that range from the softest to the most intense.

Because the Intense™ Harry is made of high-quality silicone, it is particularly flexible during use and adapts perfectly to the contours of the body. Thanks to the silicone Flex technology, it allows vibrations to be transmitted to your hottest areas with a special intensity. To be able to enjoy it to the fullest, we recommend additionally using lubricants, such as Waterfeel, Aqua, Bioaqua or Black Hole lubricant, available in classic, silky and heat effect versions.

What other advantages does the vibrator have?

Thanks to its shape and ergonomics, it intensely stimulates the G-spot. Its waterproof finish (IPX6), Intense™ Harry will please you both under the shower and in the bathtub and is also easy to clean. For thorough disinfection before and after each use, use Waterfeel's Disinfectant Spray, so you can enjoy your new companion for a long time. If you ever find yourself out of breath, the built-in batteries can be recharged using the included USB charging cable.
