Product description

Ultra-sensitive, rock-hard nipples and heightened arousal are just a touch away. With the push of a button, the Intense Pump adheres perfectly to the skin with a strong suction seal for hands-free fun - simply place the clear cups over each nipple, calibrate, and watch them grow.

Intense Nipple vacuum pump improves your performance thanks to the built-in gauge. At a more advanced level, the calibration system is necessary to optimize performance and guarantee the real pressure.

Nipple vacuum pump is an exciting collaboration with Intense to create a collection of high-quality, authentic items suitable for both long-term practitioners and new initiates.

Characteristics:

- Individually controlled vibrating cups
- powerful suction
- Air release button for quick and safe removal
- transparent nipple cups
- Free of phthalates.
