Product description

Two deep, powerful engines for a mind-blowing sensation

- Envelops the head of the penis with vibration and suction
- An effortless masturbation experience
- Use it alone or invite your partner to promote orgasm
- Easy to use with one hand or hands-free

A HANDS-FREE PENIS TOY

Do you know how difficult it can be to maintain a good stroking rhythm while also thrusting? This toy solves that.

SHARE THE VIBRATION

No erection? No problem. Have your partner play with you and use the toy at the same time.

SUCTION

Developing a technology that provides differential value is the most difficult task, and at JAMYJOB, we have achieved it.

THE ULTIMATE SUCTION-DRIVEN MASTURBATOR

Remember the first time you got behind the wheel of a car? Those feelings of freedom, possibility, and power? The knowledge you could explore and discover in ways never before possible? That's pretty much what happens to your penis the first time you use the JAMYJOB™ ASTRA.

WHAT MAKES THE JAMYJOB™ ASTRA SPECIAL?

JAMYJOB™ ASTRA sensually envelops your penis in velvety silicone and incredible vibrations. Its two motors bounce the vibrations off each other, for a gentle suction sensation. No need to thrust, squeeze, or stroke: just lie back and enjoy.

CAN I ALSO USE THIS VIBRATING MASTURBATOR FOR COUPLES SEX?

We're two steps ahead of you! One of the advantages of having two motors is that you can also feel the strong vibration from the outside of the silicone sleeve. We recommend lying down with the JAMYJOB™ ASTRA and inviting your partner to climb on top of you.

CAN I USE JAMYJOB™ ASTRA WITHOUT AN ERECTION?

Yes. Since all you have to do is place the head of your penis inside the toy, you can absolutely enjoy it with or without an erection. This is also a popular toy for people with arthritis and other conditions that make it difficult to maintain a hands-only

masturbation routine. Once you've set it to the setting you like, you can go completely hands-free!

MATERIAL AND CARE

Jamyjob is a waterproof toy made of silky-smooth medical silicone, which is extremely slippery and absorbs your body heat quickly. The toy can be easily cleaned with a little soap under warm water. With a little disinfectant toy cleaner, you can ensure particularly thorough hygiene afterward, ideally with Waterfeel's perfectly coordinated disinfection spray. For maximum pleasure, always use your toy with one of Waterfeel's water-based lubricants that is perfectly matched to the product. They are available in classic, silky, and warm versions. The vegan, water-based composition protects the material and keeps the surface of your toy pleasantly smooth.
