Product description

Why use the JAMYJOB PREW sleeve warmer? The SleeveWarmer device warms your JAMYJOB masturbator to a sensual temperature that further mimics the sensation of a real-life sexual experience.

- Convenient power options: USB cable
- Heats to 105° Fahrenheit / 40° Celsius, the perfect temperature for recreating a realistic sexual environment, in less than five minutes.
- Maintains temperature after warming up, so it's ready to go whenever you are Ready to go
- Auto shut-off feature prevents accidental overheating
- Water resistant against light moisture and splashes.
- Sturdy, non-slip base pads
- Quick and easy setup
- Total length: 20 cm
- Insertable length: 15 cm

Heating Guide

Heater Guide

Always test temperature before use (should be warm, not hot). Do not leave warmer in sleeve overnight.

Clean sleeve after use as usual. Wipe warmer with damp cloth if needed.
