JAMYJOB - ROCKET MASTURBATOR SOFT COMPRESSION TECH AND VIBRATION

Price	100.15 £
Number	70136288
Producer code	FETISHID-230326
EAN	8435565931162

Product description

Four, three, two, one... the countdown is over and the Rocket takes off at the speed of light to take you straight into universes of pleasure!

The Rocket is a male masturbator for those who wish to live experiences from another planet because this high-tech item can vibrate and compress at the same time. The effect simulates the behavior of the human body to make your masturbation much more pleasurable. Apply some water-based lubricant (Jamyjob recommends the use of Aqua Quality lubricants for an effective and long-lasting glide) and slide down its soft textured inner sleeve, now comes the best... choose between its vibration and compression modes and... you will feel a pleasure from another galaxy!

Characteristics:

- Rocket Masturbator
- 7 compression modes
- 7 vibration modes
- Easy to clean
- Super soft silicone and ABS
- Jamyjob recommends use with Aqua Quality lubricants
- Bodysafe material. No Phthalates
- USB Rechargeable

Jamyjob is the result of a multitude of studies linked to the use of top quality materials in its firm purpose of offering the latest technology on the market adapted to adult pleasure.

Toy Guide

Adult Toy Guide

Start with a small vibrator or bullet. Add lubricant. Clean after each use.
