MATERIALS AND CARE

Jamyjob is a waterproof toy made of silky-smooth medical silicone, which is extremely slippery and absorbs body heat quickly. The toy can be easily cleaned with a little soap and warm water. With a little disinfectant toy cleaner you can ensure particularly thorough hygiene afterwards, ideally with the perfectly coordinated disinfectant spray from Waterfeel. For maximum pleasure, always use your toy with one of Waterfeel's water-based lubricants that perfectly match the product. They are available in classic, silky and warm versions. The water-based vegan composition protects the material and keeps the surface of your toy nice and smooth.
