CREATIVE TIPS
Duet™s multi-surfaced tip means you can use the different surfaces to explore what feels best for you. Duet is also versatile and can be used for both external and shallow internal play. ;

Use Duet to explore the vulva, massaging the labia and clitoris to build up excitement and explore what works best for you. Rotate Duet™s tip into the clitoris and keep exploring where feels good to you. Try out the different surfaces, both rounded and smooth as well as intensities and go with what feels good for you. Keep rotating and adding pressure to where you feel sensations, increasing pleasure and build-up. Duet™s rumbly motor releases low-frequency vibrations which will penetrate the body further, thus giving a richer, deeper, sensation.

If you want to explore some shallow internal vibrations, then do so once aroused, or use a water-based lubricant. Exploration is key and rotate and add pressure to where feels good. For those that want to be more adventurous, you can explore the anus entrance and the perineum, letting Duet™s vibrations and surfaces excite you.

Using the 5 different speeds and 7 patterns try out different intensities, pressure, and pulsations. Experiment with what works best for your body and go with it.
