Product description

This flexible and powerful ring will keep you erect for longer while increasing your partner's pleasure: Mio makes it easy for couples to achieve simultaneous orgasms. Mio is designed with a unique low-frequency motor from the Je Joue brand, with strong, choppy vibrations that expand deeply to provide very intense sensations. Mio offers a wide range of vibrations, from a delicate purr to intense pulsations. Intensely deep sensations

There are two options depending on the level of experience:

- Beginner: If you stretch Mio and slide her to the base of your penis, you can place the vibrating section upwards (towards her stomach) to stimulate her clitoris; or downwards, to use it in the doggy position, to increase his pleasure (the vibrations will stimulate the scrotum)
- Advanced: Before erection, place Mio at the base of the penis, including the testicles; Wearing a ring around the entire area will keep you erect longer by maintaining greater blood flow to the genital area. The erection will be firmer than in the first option and, in addition, fantastic sensations around the scrotum and perineum will be added to the entire overall experience.
- Mio can also be placed at the base of two fingers during foreplay for more subtle and stimulating caresses all over the body.
