Product description

Kiiroo Onyx+ Product Description:

Kiiroo Onyx+ brings a whole new sensory experience to the internet: intimate touch. This lightweight male masturbator is quiet, discreet and perfect as a travel companion. The third generation Onyx has a completely different rotary motor that changes the feel of what you feel.

Onyx+ can reach up to 140 strokes per minute while maintaining a quieter motor than its two predecessors, making the sensory experience of using Onyx+ even more exciting.

Inside the Onyx+ are 10 rings that work together to simulate intercourse and up and down strokes in real time.

Kiiroo Pearl2+ Product Description:

Pearl2+ is a technologically advanced G-spot vibrator enabled with touch-sensitive technology. The slightly curved shape is perfect for G-spot stimulation and all types of external pleasure. The three bumps on the Pearl2+ stimulate the G-spot more intensely when inserted into the body.

Pearl2+ can connect to all Kiiroo products using the FeelConnect app so partners can feel in real time no matter how far away they are.

For webcam performers, Pearl2+ will help them make more money as users can give control of their vibrator to their fans and use it for interactive tipping.

What differentiates Pearl2+ from Pearl2?

Aside from Pearl2+'s vibrant new color, we've improved the touch pads and extended them all the way to the tip to make the Pearl2+ much more responsive to touch. This is ideal for play or clitoral stimulation that begins as soon as the toy is inserted. One of the most exciting updates is the 90 minutes of battery life, so the fun can continue.

Feel Your Lover.

Onyx+ and Pearl2+ users can use the FeelConnect app to control their partners' products remotely. They can also pair their Kiiroo products with each other through the app to feel in real time no matter the distance.

Feel Webcam.

Kiiroo's webcam feature allows webcam models to sync their Onyx+ and Pearl2+ to webcam platforms and receive tips for giving control of their toys to fans watching them. The webcam business is growing and there is a huge demand for this interactive technology among artists.

Feel Videos.

The 10 contracting rings on Onyx+ move up and down mimicking the action on screen, and Pearl2+'s vibrations sync with the movements you see on screen, making users feel like they're in the scene.

Feel Virtual Reality.

Using mobile virtual reality glasses and Onyx+ or Pearl2+ users can experience high-quality adult videos filmed in 180 and 360 degrees with stereoscopic 3D views or play virtual reality porn games.

App Guide

Long-Distance Love

App-controlled toys allow your partner to control your toy from anywhere in the world – perfect for long-distance relationships. Most apps offer secure, private connections.
