Product description

The world's most technologically advanced, award-winning G-spot vibrator just got a power and battery life upgrade.

Pearl3 is a technologically advanced G-spot vibrator enabled with touch-sensitive technology. The slightly curved shape is perfect for G-spot stimulation and all types of external pleasure. The three bumps in Pearl3 stimulate the G-spot more intensely when inserted into the body.

Pearl3 can connect to all Kiiroo products using the FeelConnect app so partners can feel each other in real time, no matter how far away they are.

For webcam performers, Pearl3 will help them make more money as users can give control of their vibrator to their fans and use it for interactive tipping.

What makes Pearl 3 different from Pearl 2?

Aside from the Pearl3's vibrant new colors (purple and pink), we've improved the touch pads and extended them all the way to the tip to make the Pearl3 much more responsive to touch than its predecessors. This is ideal for play or clitoral stimulation that begins as soon as Pearl3 is inserted into the body.

The silicone contour around the G-spot area on the bottom of the Pearl3 concentrates and directs vibrations directly to the G-spot area, giving the user the most pleasurable sensations.

We've also added 3 hours of battery life, which is perfect for extended gaming, multiple sessions, and professional use. Who will get tired first?

FeelConnect App Features

Available on Google Play and Apple Store.

Feel your lover.

Pearl3 users can use the FeelConnect app to control their partners' products remotely. They can also pair their Kiiroo products with each other through the app to feel in real time no matter the distance.

Feel the webcam.

Kiiroo's webcam feature allows webcam models to sync their Pearl3 with webcam platforms and receive tips for giving control of their toys to fans who are watching them. The webcam business is growing and there is a huge demand for this interactive technology among artists.

Feel videos.

Pearl3's vibrations sync with the movements you see on the screen, making users feel like they are in the scene.

Feel Virtual Reality.

Using mobile virtual reality glasses and Pearl3 users can experience high-quality adult videos filmed in 180 and 360 degrees with stereoscopic 3D views or play virtual reality porn games.
