Product description

When size matters and you’re looking for an extreme hollow-strap-on, the King Cock 10″ Hollow Strap-on Suspender System is the perfect choice for incredible results. This one-of-a-kind strap-on system features two heavy-duty nylon shoulder straps that easily adjust to support the weight of the massive hollow dildo, along with an adjustable nylon waist strap to fit most sizes. A durable metal o-ring holds the dong in place when the action heats up, while nylon webbing thigh straps easily adjust to hold everything together. A Velcro strap wraps around the shaft of the dildo for extra support, and four metal straps help secure the metal o-ring around the base of the dildo.

The King Cock Hollow Strap-on is a huge, 10″ (25cm) long, 1.9″ (4.8cm) thick phthalate-free dildo made in Pipedream’s state-of-the-art USA manufacturing facility. A long hollow plastic tube, measuring 1.5″ (3.8cm) in diameter, is placed inside the rubber dong, making it perfect for men with performance problems or both sexes to wear. Anyone who says size doesn’t matter hasn’t experienced this massive strap-on!

Every vein, every shaft, and every head on our King Cock dildos are carefully handcrafted with exquisite detail to give you the most realistic experience ever imagined. This award-winning brand is home to the best-selling realistic American-made dildos in the world. Best of all, King Cock is body-safe and proudly made in the USA, so you can enjoy every masterpiece with confidence.

- Phthalates free
- Length dildo: 30.5 cm
