Price	98.95 £
Number	70141227
Producer code	FETISHID-242816
EAN	7350075029912

Product description

Discover a new dimension of self-care with the **LELO** Body Massage Mat - the most direct path to a completely relaxed body.

The **LELO** Body Massage Mat is inspired by ancient acupressure techniques and features thousands of sharp (yet comfortable) spikes that activate different acupressure points to promote circulation, relieve tension and help restore energy naturally. It helps you take personal care of your health. You can use it to perform a pre-sex ritual to connect your mind and body, but also to relax afterwards.

FEATURES:

- Size:
- Mat: 75 x 42 x 2 cm
- Pillow: 42 x 15 x 10 cm
- Foam: 70 x 40.5 x 2 cm
- Weight: 0.8 kg
- Materials: 120 g cotton + ABS + D25 foam
- Plastic sheet material: ABS

HOW TO USE YOUR LELO BODY MASSAGE MAT?

STEP 1: Get ready

Lay out your mat on the floor or bed.

To get the most out of your experience, do so without any clothes on. If you have sensitive skin, wear a thin shirt. Place a pillow behind your neck.

STEP 2: Get started

A relaxed body and a calm mind are the best ways to be in harmony with yourself. Place the pillow on top of the mat so that it conforms to the curve of your back and you feel maximum relief.

STEP 3: Enjoy

The first few minutes are intense, but little by little, you will endure more.

For optimal results, use it for 20 minutes without moving. After this time, you will be ready to explore your desires.

HOW TO USE YOUR PRODUCT:

Its unique texture relieves tense muscles and calms the mind, making you enter a state of tranquility in which stress does not exist.

- **RELAXES THE ENTIRE BODY**
- **IMPROVES CIRCULATION** It increases blood flow and creates a warm and stimulating effect that charges your batteries and revitalizes you.
- **YOU WILL SLEEP BETTER** If you use it frequently, it will improve your quality of sleep, as it helps you feel rested and balanced.
- **STIMULATES ENDORPHINS** As the acupressure points gently stimulate the body, a wave of endorphins is released

that make you feel good, reduce discomfort and improve your mood.
