Price	**274.34 £**
Number	**75336813**
Producer code	**FETISHID-231336**
EAN	**7350075028618**

Product description

Introducing the new ENIGMA™ Cruise double vibrator. Like its predecessor ENIGMA™, it has been created to induce a combined clitoral and G-spot orgasm. It is the holy grail of sexual pleasures. When you try it, nothing will seem the same. ENIGMA™ Cruise includes Cruise Control™ technology so that the toy does not lose intensity when you press it hard on the body and you can enjoy it with total freedom. Now you can experience one combined orgasm after another until you reach a new level of sexual well-being.

WHAT IS ENIGMA?

ENIGMA™ is inspired by two of our best-selling products, SONA™ and SORAYA™ and offers the concept of the world's most luxurious hybrid pleasure. It uses sonic wave technology, which stimulates the clitoris while resonating deeply in your body, and also has an internal ergonomic stimulator that massages your G-spot, just like our SORAYA™, to lead you to a progressive orgasm that It floods you again and again.

SENSONIC™ TECHNOLOGY

- Without making direct contact, ENIGMA™ Cruise's sonic waves offer quick but gentle stimulation to the clitoris for immense pleasure.

DOUBLE EXCITATION

- Simultaneously caress the clitoris (both the part that is visible and the part that cannot be seen) and the G-spot.

ERGONOMIC INTERNAL STIMULATOR

- Fully flexible stimulator that sends ultra-powerful vibrations to your G-spot.

CRUISE CONTROL™

- It automatically increases the intensity by pressing it firmly on the body for controlled and constant pleasure at all times.

HOW DOES PATENTED CRUISE CONTROL™ TECHNOLOGY WORK?

Developed exclusively by LELO, Cruise Control™ reserves 20% of ENIGMA™ Cruise's total power during normal use, so when you press ENIGMA™ Cruise hard on your body and the engine starts to lose power, that 20% is released. Extra % to prevent the intensity from being reduced. It is not just another configuration, but is fully automatic and erases the most common complaints about pleasure products in one fell swoop.

ENIGMA™ Cruise Black

ENIGMA™ Cruise is the next generation dual stimulation sonic massager that uses sonic waves to fully stimulate the clitoris and powerful vibrations to massage the G-spot. High-quality silicone absorbs the sonic waves and transmits them to the clitoris to deliver a sensation very deep and delicate at the same time, while the internal part vibrates synchronously to stimulate your G-spot. It also includes Cruise Control™ technology so that the toy does not lose intensity when you press it hard on the body and you can fully enjoy freedom.
