Product description

LELO HEX™ Organic is a game-changing condom for intimate protection, offering the perfect balance of safety, environmental responsibility, and luxury. Infused with L-arginine, a naturally occurring amino acid that helps boost blood flow, this condom may support firmer, longer-lasting erections for a more responsive experience. Made from organically sourced latex, it's ideal for those who want a purer, more natural experience without compromising on pleasure.

Safe and sensual, **LELO HEX™ Organic** is your condom redefined.

- **ORGANICALLY SOURCED LATEX:** Made with organically sourced latex and created through eco-conscious practices, this condom ensures that your pleasure doesn't come at the planet's expense.
- **L-ARGININE:** L-arginine supports increased blood flow in the genital area and helps enhance the size and hardness of erections. It may also decrease the effects of erectile dysfunction and help increase sensitivity.
- **HEXAGONAL STRUCTURE:** A groundbreaking design made of 350 tiny hexagons—nature's ultimate symbol of beauty and resilience. It's a revolution in pleasure that allows for a sensitive, close feel and a secure fit.

USING LELO HEX™ ORGANIC:

- STEP 1 - Open with care: Gently tear open the condom wrapper.
- STEP 2 - Roll it on: Pinch the tip to leave space and roll it down smoothly over an erect penis or sex toy.
- STEP 3 - Enjoy & dispose: Organic latex is biodegradable, but condoms should still be disposed of in the trash (not flushed). After use, carefully remove, tie off, and wrap in tissue before discarding.

Buying Guide

Why Buy Condoms at Sforne?

Premium protection products. Trusted global brands. Wide range of sizes and textures. Discreet worldwide shipping. Modern comfort-focused designs.
