What is Cruise Control technology?

Developed by LELO, Cruise Control technology ensures that the toy does not lose power, even when you press it hard against your body. This way, you can enjoy a constant and worry-free sensual experience. This is not a setting you can turn on and off. It is an integrated and completely automatic function that also erases in one fell swoop all the complaints that this type of pleasure objects received.

GENTLE SONIC WAVES

- SILA's sonic waves stimulate your clitoris and allow you to enjoy different intensities as you immerse yourself in a spiral of orgasms.

BIGGER MOUTH

- SILA's large mouth gravitates over the pleasure center for greater comfort and satisfaction without the need to make direct contact.

EXTRA SOFT SILICONE

- It is made of ultra-soft, body-safe silicone for a unique sensual experience and total peace of mind.

100% SUBMERSIBLE AND RECHARGEABLE BY USB

- Thanks to its USB charging cable, you can take your SILA wherever you want since, in addition to being discreet and submersible, it is easy to clean
