Product description

It is the world's first ring for couples, rechargeable and waterproof, which also offers vibrations with twice the power of any other object of this style.

LELO's original TOR was already the most exclusive couples ring on the market and now the Swedish designers have taken its performance even further.

Created to be worn by men while making love, its extra soft silicone design comfortably adapts to all sizes, providing greater presence for him and fabulous sensations for her. In addition, its completely waterproof design has a control interface. easy to use and 6 stimulation modes.

TOR 2 can also boast longevity, as its useful life is equivalent to that of about 10,000 disposable rings, which makes it a true and very profitable investment in pleasure in the short, medium and long term.

As with all LELO pleasure objects, TOR 2 is designed to provide complete peace of mind in any situation and under any circumstance. Made from FDA-approved, phthalate-free PC-ABS/silicone plastic, TOR 2 provides 2 hours of virtually silent vibrations after a charge time of just 2 hours.

Speed and intensity are easily regulated using an intuitive control dial, and both functions can be completely locked to ensure discreet transportation of the object at all times.
