Product description

Precision Engineering for Real Results – MAXTENDER L is a premium traction device that combines patented Adaptive Gear Tech with medical-grade materials to deliver measurable results and maximum comfort during prolonged use.

What Makes It Different

1. **Patented 45° Inclined Segment** – Anatomical anchoring that prevents slippage. Adapts to the natural shape of the glans without constant readjustments.
2. **Single Central Rod System** – Perfectly balanced traction. Unlike competitors with dual rods, it maintains centered, uniform force distribution.
3. **Adaptive Gear Tech** – Self-calibration from the very first use. No complex measuring required. Ready in under 5 minutes.
4. **Medical-Grade Liquid Silicone (Shore A 20–30)** – Ultra-soft material. No irritation, no allergies, and no pressure points during long sessions.
5. **Included Discreet Mode** – Full discreet-wear system with belts and ABS ring. Invisible under casual clothing.
