Product description

The MX28MR Jockstrap is an innovative jock designed to offer exceptional support and enhance the male anatomy with style and comfort. Made with a blend of lycra and elastane, this jockstrap fits perfectly to the body, highlighting and accompanying each contour naturally.

FEATURES:

- **High Quality Material:** The lycra fabric with elastane provides superior elasticity, allowing the jockstrap to mold perfectly to the body. This material is soft to the touch, durable and highly breathable, ensuring a comfortable feeling all day long.
- **Anatomical Design**: The design of the Jockstrap is designed to highlight the male anatomy. The elastic and tight material ensures adequate support, while its ability to mark the natural contours of the body offers a defined and attractive look.
- **Double Support Straps:** One of the outstanding features of the Jockstrap is the inclusion of double rear support straps. These straps not only provide additional support but also subtly lift the buttocks, creating an appealing visual effect and a unique sensory experience.
- **Freedom of Movement**: The absence of fabric in the back, combined with the design of the support straps, allows for great freedom of movement. This makes the Jockstrap ideal for a variety of activities, from everyday use to intense physical exercise.
- **Superior Comfort:** The tight yet comfortable fit of the jockstrap ensures that you feel secure and supported at all times. The combination of Lycra and Elastane not only offers a perfect fit but also a soft and light feeling that lasts all day long.

The Jockstrap MX28MR is more than just a pair of underwear; it is a garment designed to offer support, lift and superior comfort. With its high-quality fabric, anatomical design and innovative features, the Jockstrap is the perfect choice for those looking to combine functionality with style in their underwear.
