## METAL HARD - STAINLESS STEEL TESTICLE RING 56MM

Price	<b>90.13 £</b>
Number	<b>70141439</b>
Producer code	<b>FETISHID-205427</b>
EAN	<b>8439004005427</b>

### Product description

Ring to insert the testicles and prevent them from retracting towards the body, which usually happens at the time of ejaculation.

- In this way, the sensation of orgasm is intensified, forcing the testicles to remain away from the body.
- Measurements / 56 mm wide x 35 mm inner diameter

Includes wrench and fixing screws

It is highly recommended to shave or trim your pubic hair to prevent it from getting tangled or pulled when you remove it, as well as the use of intimate lubricant to make it easier to slide it to the desired position.

### Sizing Guide

#### Metal Ring Guide

Measure circumference of penis and testicles together (for full rings) or shaft only (for shaft rings). Order one size smaller than measurement for snug fit.

Remove immediately if you feel pain, numbness, or discoloration.
