Product description

These tablets contain a balanced formula of natural ingredients that enhance sexual desire and reinforce physical well-being.

Maca root powder is a well-known herbal aphrodisiac and guarantees effective sexual stimulation. Maca contains a large amount of tyrosine and phenylalanine. These amino acids are, to a certain extent, a preliminary step of brain neurotransmitters that exert a positive effect on sexual desire.

Niacin plays an important role in the proper functioning of the nervous system and contributes to optimal energy supply to the body.

The ingredients tribulus terrestris, sarsaparilla, pumpkin seed, nettle leaf, catuaba, Siberian ginseng, zinc and oats reinforce the production and release of hormones and help regulate the concentration of sexual hormones, including testosterone. These hormones are essential for maintaining sexual desire in both men and women.

American ginseng and ginger root oil have a positive effect on libido and physical performance.

Muira puama improves blood circulation and thus increases blood flow to the genitals. Paprika and L-arginine also stimulate blood flow to the genitals, which strengthens erection and improves sexual performance.

Kola nuts boost the body's energy supply and resistance to fatigue. Calcium is an essential mineral that supports healthy muscle function and the transmission of nerve impulses.

Characteristics:

- Promotes sexual desire
- Promotes sexuality
- Reduces fatigue and promotes a healthy energy supply to the body

Venicon for W Venicon for Women is specially formulated to meet the sexual needs of women.
This exclusive balanced formula based on top quality herbs, vitamins and minerals, provides more energy and contains natural aphrodisiacs to increase sexual desire.

Safety

Ingredients & Safety

All our products use body-safe, tested ingredients. Look for "hypoallergenic" and "glycerin-free" options for sensitive skin.
