How does it work

This massage oil reduces the friction that arises during a skin to skin massage and ensures that the contact with the skin is relaxed. The blood flow is stimulated and the muscles relax. Thanks to the handy and efficient packaging, the massage oil is easy to dose. Apply an amount to the skin at your own discretion; if desired, more oil can be applied while massaging. A massage oil puts an extra layer on the skin, making it easy and soft to massage. Thanks to the nourishing formula, based on high-quality oils, the skin feels nourished and cared for after every massage.
