Product description

CoolMann Delay Gel helps delay ejaculation thanks to its mild cooling effect. An exclusive product that provides more control and helps to enjoy a better and more lasting pleasure during sexual intercourse.

- Premature ejaculation is very uncomfortable for many men and their partners. They are men who finish faster than they would like, which means having to enjoy sex for less time. The exclusive CoolMann Delay Gel cools the head of the penis, causing it to be less sensitive and helping to prevent premature ejaculation.
