Product description

One of the active ingredients in the tablets is Tribulus Terrestris. This substance plays a very important role in the production of Luteinizing Hormone or LH.

LH stimulates testosterone production in the male testicles. Higher testosterone levels strengthen the body, energy and libido. All this helps to achieve an erection and maintain it firmly.

Siberian Ginseng helps regulate the production of sex hormones and improves sexual desire by increasing libido.

L-arginine is an amino acid that relaxes muscles and promotes blood flow to the male genitalia.

Muira Puama improves blood circulation and consequently makes the blood flow to the male sexual organs and penis much better. The penis will improve its size thanks to the optimal stimulation of blood flow.

Sabal is a herb known for its positive effects on prostate function and sexual energy. Calcium is essential for the proper functioning of nerves and muscles.
