Product description

Aqua Comfort is a superb and unique water-based formula that provides great non-sticky and long-lasting lubrication. The feeling is rich and silky and it doesn't leave any residue on the skin after use.

The formula is free from parabens, glycerine and propylene glycol which are normally found in conventional water-based lubricants. Parabens and Propylene Glycol are both known to be irritants, causing unwanted reactions for many women. Glycerine is a sugar alcohol that provides a good environment for Candida albicans, which is the most common fungal organism responsible for vaginal yeast infections.

Swede has lowered the pH value to 4.5, which is the average vaginal pH-value. The formula is condom-safe and can be used with all sex toys.

- Long-lasting and non-sticky
- Glycerine & Paraben-free
- Propylene Glycol-free
- Natural active ingredients
- Low irritation risk
- pH-balanced
- Easy to rinse off with soap and water
- Leaves no residue
- Condom-safe

120 ml

Lube Guide

Water-Based Lube Guide

Water-based lubes can dry out during long sessions – reactivate with a few drops of water or saliva. They leave no stains and wash off easily with water.

Our selection includes hypoallergenic, pH-balanced, and organic options for sensitive skin.
