Product description

With Fruity Love Lubricant Swede is continuing to create new trends in erotic cosmetics. The ground-breaking and slightly erotic design is setting a new standard among fashion-conscious customers all over the world. Unique designs demand state of the art formulas.

Swede's goal has been to develop a completely natural and safe formula without compromising their most important criteria: smooth and long-lasting lubrication, soft and gentle feel against the skin, condom safe, non-irritating, pH-balanced, water based and easy to rinse off.

The result is a series of tasteful lubricants containing only ingredients also used by the food industry.

This means they are completely non-toxic and totally harmless if ingested in small amounts.

Because the formulas are also pH-balanced they do not disrupt the sensitive vaginal environment and represent less risk of yeast infections. The formulas don't contain Parabens, which is a very common preservative in general use for lubricants and cosmetics.

Parabens is also known to cause irritation and allergies. 100 ml

Flavor Guide

Flavored Lube Guide

Use flavored lube for oral sex, hand jobs, or playful body painting. They taste pleasant but are not as long-lasting as unflavored lubes.

Our flavored lubes are paraben-free, glycerin-free, and made with natural sweeteners (stevia, erythritol).
