## Product description

**-- DISPLAY PROFESSIONAL PACK X 10 UNITS --**

**Lost Mary** is a renowned brand in the world of vaping, known for offering a wide range of disposable and rechargeable devices that combine innovative design, advanced technology and a variety of flavors to satisfy the most demanding users.

**About the BM600 model:** This disposable device features a compact, flask-shaped design, making it easy to transport and use discreetly. It offers up to 600 puffs and is available in a wide range of fruity and refreshing flavors. Each unit contains 2 ml of e-liquid with a 2% nicotine concentration 20 mg/ml.

**Common Features:**

- Ergonomic Design: Lost Mary devices are designed to be comfortable and easy to use, with shapes that fit perfectly in the hand and high-quality materials that guarantee durability.
- Variety of Flavors: The brand offers a wide selection of flavors, from fruity to menthol, ensuring that each user finds their favorite.
- Advanced Technology: They incorporate features such as dual mesh coils for a more efficient vaporization and battery and liquid level indicator screens on advanced models, providing a superior vaping experience.
- Nicotine Concentration: The devices are available in different nicotine concentrations, allowing users to choose according to their preferences and needs.

It is important to note that **Lost Mary** products contain nicotine, a substance that can cause addiction. Its use is intended exclusively for adults over 18 years of age who are already smokers. Not recommended for non-smokers.

**Ingredients:** Vegetable glycerin, propylene glycol, nicotine, acid salt containing nicotine benzoate, natural and artificial flavors.

- If swallowed, call the National Institute of Toxicology immediately at +34 915620420
- In case of contact with skin or eyes, wash with plenty of water. Do not throw away the container as it contains important information that you may need.
- The sale of this product to minors under 18 years of age is prohibited.
- This product is not Recommended for non-smokers, young people, pregnant or breastfeeding women, people allergic to any of the ingredients listed and people with general health problems.
- Storage: Keep the contents of the product in a dark, cool and dry place, out of the reach of children and animals. Keep away from drinks and food. Always make sure the container is completely closed and upright.

**Instructions for use:**

Open the protective packaging, remove the device. Before use, remove the silicone layers from both ends, the mouthpiece and the air inlet. The device can be used/activated by inhaling through the mouthpiece. Do not cover the air openings on the bottom of the device as this may damage the device's vaporizer. After use: do not dispose of with normal household waste at

the end of its useful life, but hand it in at official battery collection points.

**Possible contraindications:**

Due to propylene glycol:
- It may cause adverse effects in people being treated with disulfiram or metronidazole.
- Allergic reactions may occur in people with a history of atopy, childhood eczema or rhinitis fever
- Lactic acidosis may occur when large amounts of propylene glycol are consumed.
Due to glycerin:
- The chances of dehydration increase in older and already dehydrated people. Caution should be taken in people with diabetes, as metabolized glycerol may cause mild hyperglycemia.

**Possible side effects:**

First-time e-cigarette users may experience mouth irritation, dry throat, or cough. If symptoms persist for no more than 48 hours or become severe, visit a general physician and report details of the incident according to the guidance provided in the adverse event report.
Nicotine withdrawal effects can also occur if an inappropriate strength is used to satisfy your cravings.
These may include irritability, aggression, low mood, anxiety, restlessness, poor concentration, increased appetite, urge to smoke, sleep disturbances, or decreased heart rate.

**Hazards:**

Toxic if swallowed. Harmful if in direct contact with skin. Harmful if inhaled. Harmful to aquatic life with long lasting effects.

**Warning:**

This product contains nicotine, which is an addictive substance. It may cause an allergic reaction. If you have any of the following medical conditions, consult your doctor or pharmacist before using this product: Heart disease, throat disease, lung disease, liver disease, kidney disease, ulcers or inflammation of the stomach or esophagus, hyperthyroidism and pheochromocytoma, or diabetes.
