Product description

A new cream for male virility .

With natural composition and composed with taurine and authentic extract of bull testicle.

Their valuable active and protective substances supply and vitalize the genital area optimally. The regenerative effects of this cream for male virility are reinforced by its powerful vasodilator composition acting effectively to penile erection.

Applying a gentle massage in the genital area and within minutes noticed its effects by providing the best penis erection and harder.

You can use it with condoms.

Dermatological and clinically tested

- 40 ml

Enhancement Guide

Enhancement Guide

Start with low pressure/short sessions. Increase gradually. Never overdo - injuries possible.

No magic pills - devices work but need commitment.
