Product description

The **internal** condom, formerly known as the female condom, is an innovative and comfortable alternative to the external condom, designed for vaginal use only. Made without latex, it is ideal for people with allergies or sensitivity to this material, guaranteeing a safe and comfortable experience. It is made with a soft and resistant synthetic material, completely natural, fragrance-free and without relief, which allows an ultra-sensitive sensation during sexual intercourse. Its pre-lubricated design makes it easy to put on and improves comfort, offering a smooth glide without the need to add additional lubricant although more can be used if desired. It adapts optimally to the inside of the vagina, staying in place throughout the entire sexual act.
