### Product description

It is a cream specially designed to increase the sensitivity of the clitoris in women. It can also be applied to the internal vaginal area and produces an aphrodisiac effect.

When you gently apply it to the clitoris with a gentle massage, you will notice a sensation of **cold and heat** that means that the product is working effectively.

- With this product you will discover new sensations that will lead you to the paroxysm of orgasm.
- As each woman has a different sensitivity, you can apply it repeatedly until you get the perfect spot and the most pleasant sensation.

Very fun for the couple's oral sex game, since the contrast of temperatures and sensations is a complete complement to erotic cosmetics.

Now comes the time for women to be masters of their pleasure!

- Quantity 30 ml.

Shunga is the world leader in erotic cosmetics, its natural ingredients fused with active ingredients achieve great results.

Entering the erotic world of Shunga is like traveling to the past. Literally translated, Shunga means 'spring image', a delicate way of saying 'sexual relations' between people.

This word was used to designate Japanese erotic paintings of the 16th, 17th and 18th centuries, a type called ukiyo-e, which were nothing more than works on wood or parchment with sensual scenes and episodes of carnal love, always made with great care. and good taste.

Shunga art, although hidden for centuries, marked the beginning of the pornographic industry for the Japanese middle class and served for generations as an education for the sons and daughters of many families.
