Product description

- 100% Made with herbal extracts and natural ingredients
- Latex compatible
- Textured
- Pleasant with or without a partner.
- 30 to 45 minutes of Hot & Cold effect, sensation for optimal performance.

Many people look for a Hot & Cold effect sensation to enjoy making love. Therefore, Shuga offers a smooth feel in this new version of Dragon. It's a little less intense for fun sex.

The cream is applied with a gentle massage on the penis 30 seconds before the action, it can be used during masturbation or sex with a partner. Gently rub your genital area with your partner's and you will feel the pleasure in both of you at the same time! Like everyone, the sensation will vary depending on the person and their sensitivity.

Warning: The first sensation upon contact may be an intense heat effect that will alternate with the cold sensation gently decreasing within seconds of contact with the skin.

- It is not recommended for use in pregnant women or people with Herpes in the genital areas.
