Product description

If you are looking for a herbal libido enhancer after finding that your sex drive has decreased, check out Andropharma Vigor.

Andropharma presents Andropharma Vigor libido enhancing herbal and nutritional pills to help those whose sexual strength and desire has decreased.

A healthy sex drive or libido plays an important role in a man's sexual relationships. After extensive research and several improvements over the years, we offer our Andropharma Vigor pills with a third generation formula, aimed at enhancing libido and improving sexual activity by increasing testosterone production and improving blood flow in the penis.

- Boost Libido

The Andropharma Vigor supplement helps increase libido and stimulate men's sexual desire. Various ingredients such as maca, damiana and zinc promote the production of testosterone or the activity of this hormone and give strength to the entire body. Testosterone is a key element in men's sexual development. It also stimulates sperm maturation and influences semen characteristics, such as motility.

- Improve erectile quality

The quality of the erection could be expressed by the firmness and duration of the penile erection. For an erection to be successful and satisfactory, it is important to have strong and healthy blood flow to the penis. Various ingredients in our Vigor pills, such as ginkgo biloba and arginine, are intended to increase blood flow and improve erections.

- Improve sexual function

Andropharma Vigor helps achieve better sexual performance as well, thanks to its invigorating and stimulating characteristics. The famous Asian ginseng will revitalize your entire body and increase your sexual sensitivity. An increase in blood pressure in the penis has been observed and in some cases ejaculation has been delayed.

- Get longer lasting erections

Andropharma Vigor can help you improve your sexual desire thanks to the stimulation of the glands that secrete testosterone. This hormone stimulates the growth of the external genitalia, increases semen production and enhances sexual desire. Hence, testosterone is considered a key element for sexual development and male sexuality.

It contains 30 capsules, equivalent to one month's consumption.
