Product description

Discover the revitalizing power of the **Exfoliating Gel with Microspheres**, a cosmetic treatment designed to provide a deep and gentle cleansing for the entire body, including the external intimate area. Its advanced, dermatologically balanced formula combines effectiveness and gentleness, removing impurities, dead cells, and excess oil without altering the skin's natural pH.

Thanks to its exfoliating microspheres, this gel stimulates cell renewal, leaving skin visibly softer, smoother, and brighter from the first use. Its gentle yet effective peeling effect helps unclog pores and improves skin texture, preparing it for better absorption of moisturizing products or subsequent treatments. Enriched with an irresistibly seductive scent, this gel transforms your hygiene routine into a sensorial moment of well-being and freshness, suitable for both women and men. Its unisex nature makes it a versatile staple for shared body care.

MAIN BENEFITS:

- Gentle yet effective exfoliation for the body and external intimate area.
- Removes dead skin cells, improves texture, and stimulates skin renewal.
- Seductive aroma that lingers subtly on the skin.
- Suitable for all skin types, even the most sensitive.
- Unisex product ideal for shared daily care.

HOW TO USE:

Apply an appropriate amount to damp skin during the shower. Massage gently in circular motions, paying special attention to rough areas. Rinse thoroughly with warm water. It is recommended to use up to 3 times a week to keep your skin in optimal condition.

PRECAUTIONS:

For external use only. Avoid contact with eyes. Keep out of reach of children. Store in a cool place away from direct light or heat sources. If irritation or adverse reaction occurs, discontinue use and consult a healthcare professional.
