Product description

These condoms with non-spermicidal lubricant are smaller than regular condoms for a tighter width fit and better feel. Special for men who like a fit more in line with their needs. Each of these condoms are individually packaged in sealed, airtight packages.

The Pasante condoms Small Size S 144 Units have the Kite brand and CE Certificate, and are electronically tested. Sometimes a standard condom is still too big; and that is why the Pasante firm created the **Pasante Trim** condom, slightly tighter with a nominal width of 49mm. a normal condom has a nominal width of 52 to 56 mm. The size of this condom is recommended for an erect penis circumference of 10 to 11 cm.

The **Pasante Trim** condoms have been made of 100% natural rubber latex, coming lubricated and with a reservoir.

In 2016, Pasante Healthcare Firm was acquired by Karex Bhd, the largest condom manufacturer in the world, being a strategic fit for both companies as it will allow its growth and investment in Pasante and its subsidiary brands. Pasante offers the largest selection of condoms in the world, all manufactured to the highest quality standards. All Pasante latex condoms carry both the kitemark and the CE mark, while non-latex condoms carry the CE mark.
