Producer code	**FETISHID-235922**
EAN	**603912772500**

Product description

No rings. No Snaps. No Hassle!

PUSH-AND-PLAY Patented Suction Design + Vibration!

The patented Body Dock G-Spot Pro takes strap-on play to a whole new level with VIBRATION! It features padded back support, adjustable side-release buckles, and a premium silicone docking plate with two powerful motors for internal and external stimulation. Now, both partners can enjoy the action, which you can also control with the rechargeable remote! Changing your favorite strap-on accessory has never been faster or easier! It’s as simple as attaching the suction cup on your favorite dildo or vibrator to the docking plate, while the nylon straps easily adjust to fit most sizes and body types. Best of all, it works with most dildos on the market today, including some you may already own. No rings. No snaps. No hassle!

Patented Suction-Based Design

Push and Play! Simply push the suction cup of your favorite dildo or vibrator against the concave suction dock until ALL of the air between them is released! The suction creates a super-strong bond with no need for rings or snaps!

The Angled Suction Plate Keeps your Dildo Erect

The Body Dock features an angled suction dock to help counteract sagging caused by traditional harnesses, keeping everything looking as natural true to life as possible.

Extra information

- The easiest vibrating strap-on harness system on the market!
