PLAY WIV ME - HUGE PENIS ICE MOLD

Bring any party to a literal climax with this Giant Penis Ice Mold! You can use this mold to create a unique frozen reservoir in the shape of a giant, realistic penis. Then pour any drinkable liquid into the reservoir and have the recipient drink out of the penis. The Giant Penis Ice Mold has a high fun factor and will make for some hilarious moments! How does it work?

Fill the mold to the line with water and freeze for at least 24 hours. Remove the mold before use and put the ice sculpture in a cool spot or in a container with ice. Use filtered water for a crystal clear look.

The mold is single use. Includes English instructions.
