Product description

This mini vibrator has a beautiful design and a pronounced and stimulating concentric circle pattern, which will make you feel at home. It also fits discreetly inside any bag. The 12 vibration modes provide plenty of variety during intimate fun. The vibration modes can also be easily controlled with the push of a button. The vibrator remembers the last vibration mode that was used before turning it off, thanks to its clever memory function, and starts in this vibration mode when it is turned on again. The velvety, soft-touch texture feels great against the skin during stimulation and pleasure. Can be recharged with the included USB cable
