Product description

This buzzing bunny is the new and improved version of Pretty Love's best-selling cock ring, now with silent vibrations and an upgraded, longer-lasting AAA battery, all in compostable packaging.

As before, it uses a stretchy silicone design to keep the toy in place, with one ring that wraps around the user's shaft and the other sits over the balls for a secure fit. The shaft ring restricts blood flow out of the penis to help the user maintain a harder erection for longer. This also intensifies your orgasms for an ultra-explosive finish!

The unique bunny shape of the ring not only adds a playful touch, but also has a practical function. The bunny's ears are strategically placed to stimulate the clitoris during penetration, thus providing additional pleasure to the partner. Plus, its vibrant green color adds an element of fun and style to intimate play.

The waterproofing of this ring allows you to take the fun beyond the bedroom, as it is safe to use in the shower or bathtub. This provides the possibility of exploring new frontiers in intimacy and experiencing unique sensations in an aquatic environment.

The versatility of the ring's adjustable vibrations allows you to personalize the experience according to each user's preferences. From gentle pulsations to more intense vibrations, this toy adapts to different levels of sensitivity, guaranteeing tailor-made pleasure.

The ring's soft-touch, body-safe material ensures comfort during use. Its ergonomic design fits comfortably around the penis, providing a tight feeling that can help improve stamina and prolong the erection, while increasing stimulation for both partners.
