Price	**68.90 £**
Number	**70138522**
Producer code	**FETISHID-238085**
EAN	**6959532328899**

Product description

This handheld remote control massager has been expertly sculpted to hug your body from G-spot to clitoris and an insertable bulbous G-spot head with pulsating function to please your sweet spots.

It delivers deep, rumbling vibrations to your sensitive erogenes via its dual motors so you can enjoy blended bliss with the push of a button on the handy remote control. Cycle through 12 pulse settings and 12 vibration modes and find the combo you like best, then let the smart memory function remember it the next time you want to play!

The body of the massager is made of high-quality silicone, a material that is soft to the touch and safe for the body. This choice of material not only ensures a comfortable and enjoyable experience, but also makes it easier to clean and maintain the device.

The vibration and pulsation function offers a wide range of sensations to suit individual tastes. From gentle relaxing vibrations to more intense pulsations, this massager allows users to personalize their massage experience according to their specific preferences and needs at any given time.

The wireless remote control adds an element of convenience and fun to the experience. With the touch of a button, the user can adjust the intensity, switch between vibration and pulsation modes, and control all functions of the massager without interruption. Additionally, remote control allows the couple to actively participate in the experience, creating new possibilities for shared intimacy.

The memory function is an innovative touch that takes customization to the next level. The massager is able to remember the user's preferred vibration and pulsation settings, meaning you can pick up the last experience exactly where you left off. This intuitive feature eliminates the need to manually adjust the device each time, allowing for a smooth and effortless transition to maximum satisfaction.

Plus, rechargeable technology makes this massager environmentally friendly and saves you the hassle of changing batteries frequently. Simply plug the device through the charging port and wait for it to charge to enjoy worry-free massage sessions.
