Product description

A perfectly shareable vibration designed to be used alone or during sex while providing internal and external stimulation. This fabulous 10-function silicone vibrator is the ideal sex toy to increase passion for you and your partner.

Featuring a wireless remote control with digital meter, this vibrator is perfect for solo thrills and couples play. Hand it to your partner and let him determine which of the 10 vibration settings you will receive.

Ergonomic and made of medical grade silicone, hypoallergenic and free of latex and phthalates, it has been specifically designed to massage your G-spot and your clitoris at the same time. If you use it with a male partner, once you have inserted its narrowest part into your vagina, ask him to join the party.

Rechargeable, silent, you can control its 10 intense vibration patterns manually through its single button or remotely using its included remote control.

To turn on your vibrator, press and hold the power button next to the brand logo for a couple of seconds. Press the same button again to change the vibration mode and hold it again for a couple of seconds to turn it off. Do you want to control it with the remote control? Press the on/off button on the remote control for five seconds until it starts to vibrate. We remind you that the remote has a range of up to 2.5 meters.

Use it with a water-based lubricant and wash it properly after each use with warm water and neutral soap.

CHARACTERISTICS:

- Function: 10 vibration functions + 9 speed levels
