Simply insert your penis into the cylinder, press the button, and watch as your penis gets the power with great pleasure! When you are finished, you just have to separate the cylinder from the hose and clean it with the Waterfeel toy cleaner gel cleaner toy or the stertoy sterilizer.

Pump Addicted helps to achieve erection in a more simple way using a vacuum system that causes the blood to concentrate in the penis when it is still flaccid. The erection is achieved and maintained by a comfortable and hermetic seal at the base of the body, just at the junction of the penis with the pubis, thanks to which blood is kept in the trunk. Thanks to the sleeve, the seal is firm, comfortable and narrow without squeezing.

In addition, all Pump products can be combined with the launch of Pump vibrating bullet to increase the sensation of pleasure.

PUMP ADDICTED, gives you instant results!
